Dear Robert:

Just a short note of thank you for the security planning work you completed recently for me. It confirmed and gave me a sense of confidence regarding the tools I have put in place over the years. The process is an extremely valuable one, especially in these times where so many uncertainties exist.

Your analysis only sought to educate and allow me better understanding of options open to me now and in the future. I always felt your interests were genuinely to assist me to achieve my goals.

Thank you for your time and effort.

Yours truly,

A.D. DePetrillo, MD, FRCSC
