Dear Norm,

I am writing to thank you for recommending Bob Zinner's services. I have availed myself of his financial planning advice, and found it to be most helpful and revealing. He made a thorough evaluation of my particular circumstances, and took the trouble to ascertain my personal preferences and financial goals. He provided me with a critique of my current financial/insurance plans, and made a number of excellent recommendations to help me better meet my goals. He was careful and thorough, and at no time did I feel under any pressure or obligation to buy something I didn't want or need. I am convinced that his recommendations were unbiased and given in my best interests.

I believe it is very important for our members to have easy access to independent financial advice, and Bob Zinner has filled that role admirably.

It was a pleasure working with Bob, and I would be happy to recommend his services to any of our colleagues.

Sincerely,

Charles Catton MD, FRCPC.
