Robert Zinner
President
MedStaff Consulting
180 Dundas Street W, Suite 1507
Toronto, ON M5G 1Z8

Dear Bob,

I wanted to take this opportunity to thank you for the excellent service that you have provided since I first came to Canada to take on the position of Director of the Toronto Congenital Cardiac Centre for Adults at The Toronto General Hospital, University Health Network. You came highly recommended through Dr. John Parker and I am most grateful for his introduction.

From our first meeting it was clear that you had an in-depth knowledge and expertise in handling all areas pertinent to doctors needs. You and your team of Medstaff Consultants were able to focus and deliver on my urgent needs to quickly acquaint myself with the Canadian tax system, investment scenarios, life and disability insurance and home purchase. In all these areas you and your advisors excelled and I am very grateful. In particular, I would like to compliment Medstaff Consulting's specialized use of excel spreadsheets that were able to accurately mirror the financial, retirement and insurance needs of my family which gave us the confidence that we were on the right track. Through the entire process of putting security programs in place for my family and myself whenever I had a question, you always quickly responded with helpful and clear information. I would not hesitate to recommend you and your team of professional advisors at Medstaff.

Yours sincerely,

Erwin Oechslin, MD FRCPC
