Dear Bob,

Here are some comments regarding your request for an evaluation of the service you have provided myself and my family over the last 12 years.

My spouse Jean and I are particularly pleased with the personal integrity and commitment to service you have always shown. In addition, you have provided us with the technical innovation of your well-designed Excel spreadsheets that are effectively used for retirement planning projections. As a result, our yearly reviews have always confirmed that we are on track and in good hands.

Your financial, insurance, disability and tax related recommendations are always backed up by the solid research of the MedStaff team of accounting, tax and investment experts, along with excellent documentation.

We are pleased to recommend your services. Please do not hesitate to offer doctors the opportunity to call me if they have any questions regarding the unique services you provide the medical community.

Kind regards,

Gary E. Newton, MD, FRCPC
